

Welcome to FABB Scotland's Network of All-Ability Cycling Services

Blazing Saddles, Fabb Scotland's unique mobile cycling service, has been the catalyst to providing more sustainable and inclusive cycling across Scotland. It is recognised by Scottish Government, Scottish Disability Sport and all national cycling organisations.

As a consequence of these services people with disabilities and differing needs achieve independence, develop socially and emotionally, cycle with friends and family and, as a result this can change lives in varied and positive ways.

Contact Details

For more details about how to book the adaptive bikes and kit available in the areas outlined in this table, please contact the person named below.
