

Coordinator Bio

North Lanarkshire Bikeability Scotland Coordinator

Ross Sweeney

Job title: Active Schools Coordinator
Contact: sweeneyro@northlan.gov.uk

I have been an Active Schools Coordinator for the past 9 years. I first got involved with Bikeability Scotland when I completed my Cycle Trainer Plus qualification in 2012. Since then I have also completed the Play on Pedals and Cycle Ride Leader's course. My ambition is to get every primary school in North Lanarkshire through Bikeability Scotland 1 & 2.

Earliest memory of cycling?

I remember going through cycle training when I was in primary school and still have my certificate in my national record of achievement! It was a great experience cycling to school each day and improving my cycling skills.

What would you say to a school thinking about participating in Bikeability Scotland?

It ticks so many boxes in the Curriculum for Excellence and is a great way to encourage more pupils to cycle to school and cut down on traffic near the school. I see it is a must for every school in the country!

Best Bikeability Scotland moment?

Seeing pupils confidently being able to cycle on the roads and it being normal practice within a family.

Most likely to be heard saying....

"There is no such thing as bad weather, only bad clothes!"
