Bill has been the Bikeability Scotland coordinator for Perth and Kinross since 2019. He is encouraging all the schools in Perth and Kinross to be involved with Bikeability Scotland's training programme to give children the confidence and skills to enjoy cycling for fun and a way to keep fit.

Earliest memory of cycling?

My earliest cycling memory is getting a brand new gold Raleigh racer, thinking it was the best thing I'd ever seen and then painting it blue a few weeks later. My dad was not impressed.

What would you say to a school thinking about participating in Bikeability Scotland?

Active travel and cycling are becoming more and more important to our communities as a way of getting around for work and pleasure. It is an essential life skill that will give children the ability and freedom to travel and to stay fit and active throughout their lives.

Best Bikeability Scotland moment?

It's always great to see children improving their confidence and skills as they progress through the Bikeability Scotland programme.

Most likely to be heard saying....

"Well done, that's really good!"
